Objective: To obtain contract work in software development.

Skills and Experience:

- 22 years experience in analyzing, designing, developing, testing and maintaining large business applications in a wide variety of industries and languages.
 - Across industry and business environments, have been a resource for researching and implementing new technology solutions.
 - Lead developer in converting legacy systems to JD Edwards EnterpriseOne for Trident Seafoods, a company with annual gross sales of over \$700 million.
 - With a long history of custom development, have demonstrated the ability to think “outside the box” in solving JD Edwards EnterpriseOne challenges. This has resulted in writing complex and efficient reports and processes that significantly improve business practices.
 - Have demonstrated the ability to learn new programming languages easily and quickly and apply them to complex projects.
 - Strong interpersonal communication skills with emphasis on problem-solving in a team environment.
- Programming Languages: JD Edwards EnterpriseOne, C++, Visual Basic.NET, JavaScript, Speedware, Visual Basic 6, Cobol, HTML, RPG, Pascal, Fortran, Assembler, and FORTH.
- Database Experience: IBM DB2, MS SQL Server, HP’s TurboImage, Oracle, SAP, and Access.

Major Projects And Clients:

- Trident Seafoods
1992 to present
 - Since 2001 the lead developer in converting legacy system to JD Edwards EnterpriseOne in these modules: Financial, Manufacturing, and Distribution & Logistic, as well as major modifications to the Sales Order module. Perform troubleshooting and write customized, complex reports and applications for Sales, Inventory, Transportation, Manufacturing, Payroll, Human Resources, G/L, A/P, A/R, and Fixed Assets modules as well as EDI and Security. Currently the sole developer in supporting all of these modules.
 - Developer of company-wide standards for coding, interface, and quality assurance.
 - From 1992 to 2001: Lead developer of customized legacy modules of Inventory Management & Sales Order Processing.

Kevin J. Courtney

Major Projects And Clients: (continued)

- King County Library System October 2005 to present: Debugged and finished enhancements that were started by a JDE business partner and were not finished and not working correctly. This involved the consolidation of requisitions to purchase orders. Another enhancement was the customizing of the purchase order approval process related to who must approve and at what limits. Currently provide support for enhancements and trouble shooting.
- Blue Heron Paper Company June 2006 to the present: Provide JD Edwards 8.12 support as their primary developer.
- Illumina, Inc January 2005 to August 2005: In JD Edwards, created batch processes for the creation, material issues, and completions of work orders. Wrote a variety of functions, reports and applications that process imported sales orders; prepare and organize sales data into work order data for the interface to a non-JDE manufacturing system.
- Portland Billing Service 1986 to 2007: Enhancement and maintenance of a large Medical Billing System.
- CT3 Inc. 1995-2001: Enhancement and maintenance of Log Management System used by Weyerhaeuser, Warm Springs, and other major forest products companies.
- Hawthorne Computer Center 1986-1999: Lead developer of SpeedTools, a custom development tool used for security, printing capabilities, job streaming, documentation, and on-line help used with Speedware language. Interviewed users , designed and developed custom applications, including time and budget estimates. Customized the MCBA Cobol Accounting system and developed a wide variety of custom Speedware applications. Sample projects:
 - Tidewater Barge Lines Order Processing & Freight Tracking.
 - United Utilities of Alaska Budget System.
 - Northwest Hardwoods Log Accounting System.
 - Mt. Bachelor Payroll Front End.
 - Bellevue Public Schools School Attendance System.
- Trillium Technology 2001: Developed a large Visual Basic 6 application connected to an Oracle database using ADO for a large construction company end-user.
- Mentor Graphics Corp. 1991-1992: Various Speedware projects and maintenance including converting data from Turbolmage databases to an SAP database.

Education:

Portland Community College
Visual Basic.NET I, II, III: 2003/2004
C++ Computer Science I & II: 1997

Lane Community College, Eugene OR
Associate Degree in Computer Programming: 1985 3.91 GPA
